FOR VIRTUALLY ALL POWER-ASSISTED STERNDRIVE BOATS

Virtually all power-assisted sterndrive boats. Safe-T Dual QC® relaces all Dometic, Seastar Solutions and Teleflex Safe-T helms made since 1968 with little or no dash modifications. (Requires use of SSC62 QC.)

For single station use only. Safe-T Dual QC accepts wheels up to 16" diameter.

Components are not available in the Safe-T QC system for dual cable steering go to the 4.2 NFB dual cable system. We recommend No-FeedBack steering for all dual cable steered, non-power-assisted outboards and sterndrives. See the NFB 4.2 Dual.

Features

- Quick-response of 3 turns lock-to-lock
- New quick connect feature on both sides of helm allow port side helm mount without need for an adaptor
- Quick connect feature allows both cable and spent travel tube installation without tools
- Kits include: cable, helm, 90° bezel and hardware
- Standard 3/4" round tapered steering shaft
- Add optional tilt helm, requires separate tilt mechanism SH91800 or SH91900 for complete installation
- Stainless steel cable output ends
- Meets A.B.Y.C. standards
- Meets N.M.M.A. certification requirements
- Fast, easy installation: uses simple snap-in cable connection, Dometic Quick Connect (QC) cable, and industry-standard Safe-T mounting hardware

DISCLAIMER: This system is only recommended as replacement for the original system as installed by the boat manufacturer. Dometic always recommends NFB helms for outboard applications. NFB helms lock out steering loads caused by propeller torque eliminating the driver fatigue normally experienced with a standard helm. Our patented steering helms are a drop in replacement for Safe-T systems.
