 **DOMETIC**

DUAL-FUNCTION CONTROL - ONE LEVER CONTROLS THROTTLE & SHIFT.

Dual-function control — single lever controls throttle AND shift. Virtually all single-station outboards and stern drives with mechanical transmissions. Single lever, dual action design controls throttle and shift with one lever. Utilizes **3300/33C type** “universal” engine control cables only. Not suitable for use with Mercury® and OMC® OEM type control cables. (Mounts to gunwale surface — no hole cutout required.)

Features

- Single lever, dual action for throttle & shift
- Surface mount design for quick, tidy installation
- Includes neutral warm up capability
- Includes hardware for two 3300/33C control cables
- Positive shift detents and neutral lock-out
- Optional engine trim switch in handle. (CH2700P)
- Optional neutral safety switch
- Weather resistant exterior, rugged die cast frame
- Meets/exceeds all applicable industry standards
